PROFESSIONAL SUMMARY

Associate Quality Assurance Engineer with internship and academic project experience across Manual, Functional, Regression, Smoke, API, UI, and Mobile Testing, Defect Tracking, Test Planning, and Release Validation. Executed 120+ test cases across 5+ modules with 95% test execution coverage, assessed 50+ REST API endpoints, and logged and verified 100+ software defects while supporting Agile Scrum testing cycles. Automated 43 Playwright (JavaScript) test scenarios for the PixelsSuite Document Converter, plus Selenium WebDriver scripts for academic systems. Skilled in Postman, Jira, GitHub, SDLC, STLC, and Cross-Browser Testing, and seeking to improve software quality across web and mobile applications.

SKILLS

Testing: Manual, Functional, Regression, Smoke, API, UI, Mobile, UAT, Compatibility, Performance, Load Testing

Automation: Playwright (hands-on, 43 automated scenarios), Selenium WebDriver, Test Automation Scripts, UI Automation

QA Process: SDLC, STLC, Agile Scrum, Test Planning & Execution, Test Reporting, Requirement Validation, Defect Management, Root Cause Analysis, Test Metrics, Release Validation

Tools: Postman, Jira, Git, GitHub, Chrome DevTools

Technical: SQL, Java, JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB

EXPERIENCE

Codelantic (Pvt) Ltd

Intern QA Engineer

Aug 2024 – Feb 2025

Sri Lanka

- Executed 120+ manual, regression, smoke, API, UI, and mobile test cases across 5+ modules with 95% test execution coverage.
- Logged, tracked, and verified 100+ defects in Jira, improving defect resolution efficiency and release readiness.
- Assessed 50+ REST API endpoints via Postman — request/response, schema, and status-code validation.
- Authored 30+ test scenarios, defect reports, and release validation documents aligned with SDLC/STLC standards.
- Participated in 15+ Agile Scrum ceremonies and reviewed regression results, bug fixes, and release readiness.

Academic QA Automation Project Work

QA Automation and Software Testing Contributor

Coursework Projects

SLIIT

- Automated 43 test scenarios using Playwright (JavaScript) across Image-to-PDF, PDF-to-Word, and Word-to-PDF conversion flows — PixelsSuite Document Converter, SLIIT SQA coursework (IT4100).
- Designed and manually executed the same 43 black-box cases before automating them, reaching a 95% pass rate and reporting high-severity file-validation defects.
- Built Selenium WebDriver scripts for login, registration, and dashboard verification on SkillHorizon and other academic systems; performed API, regression, and compatibility testing across 3+ academic systems.

ACADEMIC PROJECTS

PixelsSuite — Document Converter | Playwright, JavaScript — Automated 43 scenarios across three conversion sub-features; upload validation, 20MB size boundaries, content preservation.

MomEra — AI-Driven IVF Success Prediction | React Native, Expo, XGBoost — Tested mobile workflows and API-based journeys; verified regression scenarios and release readiness.

SkillHorizon Learning Platform | ReactJS, Spring Boot, REST APIs — Built Selenium automation for login/dashboard workflows; UI, navigation, and cross-browser REST API testing.

Smart Campus Management System | ReactJS, NodeJS, MongoDB — Prepared 15+ test scenarios for service-request workflows; verified integration, role-based access, and API responses.

My Finance Mate | ReactJS, NodeJS, MongoDB — Calculation and boundary testing for budgets and savings goals; validated data persistence and totals across views.

Sai Photography Management System | NodeJS, ExpressJS, MongoDB — End-to-end booking and payment workflow testing; validated inventory updates and REST endpoints.

ToDo Task Management App | Kotlin, Android Studio — Functional and usability testing on task CRUD; verified persistence and UI behaviour across device states.

PROFESSIONAL ACHIEVEMENTS

Executed 120+ test cases across 5+ modules with 95% test execution coverage, verified 100+ defects, and assessed 50+ REST API endpoints via Postman — tracked in Jira using Agile QA processes. Separately, automated 43 Playwright scenarios for PixelsSuite as SLIIT SQA coursework (IT4100).

CERTIFICATIONS

- Introduction to Responsible AI – Google Cloud & Simplilearn SkillUp (2026)
- Selenium WebDriver Fundamentals
- Software Testing Concepts and Methodologies
- Introduction to Software Testing / Software QA
- React JS Tutorial – Great Learning Academy
- React Basics – Coursera

Next: Pursuing ISTQB Foundation certification.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

BSc (Hons) Information Technology

2022 – Expected 2026

Sri Lanka

ADDITIONAL

Languages: Tamil, English

Soft Skills: Communication, Analytical Thinking, Problem Solving, Attention to Detail, Team Collaboration, Time Management
