OBJECTIVE

Associate Quality Assurance Engineer with hands-on Playwright test automation experience, seeking to apply manual and automated testing, API validation, defect tracking, and release validation skills to improve software quality across web and mobile applications.

PROFESSIONAL SUMMARY

Quality Assurance Engineer with internship and academic project experience in Manual, Functional, Regression, Smoke, API, UI, and Mobile Testing, Defect Tracking, Test Planning, and Release Validation. Performed 120+ test cases, assessed 50+ REST API endpoints, and verified 100+ software defects while supporting Agile Scrum testing cycles. Built and automated Selenium WebDriver and Playwright test scripts covering 20+ scenarios for academic web applications. Skilled in Postman, Jira, GitHub, SDLC, STLC, Cross-Browser Testing, and Performance/Load Testing practices.

SKILLS

Testing: Manual, Functional, Regression, Smoke, API, UI, Mobile, UAT, Compatibility, Performance, Load Testing

Automation: Playwright (hands-on, 43 automated scenarios), Selenium WebDriver, Test Automation Scripts, UI Automation

QA Process: SDLC, STLC, Agile Scrum, Test Planning & Execution, Test Reporting, Requirement Validation, Defect Management & Bug Tracking, Root Cause Analysis, Test Metrics, Release Validation

Tools: Postman, Jira, Git, GitHub, Chrome DevTools

Technical: SQL, Java, JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB

EXPERIENCE

Codelantic (Pvt) Ltd

Aug 2024 – Feb 2025

Intern QA Engineer

Sri Lanka

- Executed 120+ manual, regression, smoke, API, UI, and mobile test cases across 5+ modules with 95% execution coverage.
- Logged, tracked, and verified 100+ defects in Jira, improving defect resolution efficiency and release readiness.
- Assessed 50+ REST API endpoints via Postman — request/response, schema, and status-code validation.
- Authored 30+ test scenarios, defect reports, and release validation documents aligned with SDLC/STLC standards.
- Participated in 15+ Agile Scrum ceremonies and reviewed regression results, bug fixes, and release readiness.

Academic QA Automation Project Work

Coursework Projects

QA Automation and Software Testing Contributor

SLIIT

- Built Selenium WebDriver and Playwright scripts for login, registration, dashboard, and workflow verification across academic projects.
- Automated 20+ repetitive UI validation scenarios, improving test consistency and reducing manual effort.
- Performed API validation, regression, and compatibility testing across 3+ academic systems.

ACADEMIC PROJECTS

MomEra — AI-Driven IVF Success Prediction | React Native, Expo, XGBoost

- Tested mobile workflows (feature validation, UI responsiveness, API-based journeys) and verified regression scenarios and release readiness.

SkillHorizon Learning Platform | ReactJS, Spring Boot, REST APIs

- Built Selenium automation for login/dashboard workflows; performed UI, navigation, and cross-browser REST API testing.

Smart Campus Management System | ReactJS, NodeJS, MongoDB

- Prepared 15+ test scenarios for service-request workflows; verified frontend-backend integration, role-based access, and API responses.

PROFESSIONAL ACHIEVEMENTS

Completed 120+ test cases (functional, regression, API, smoke, UI, mobile), verified 100+ software defects, assessed 50+ REST API endpoints via Postman, and built Selenium WebDriver/Playwright automation covering 20+ scenarios — all tracked and documented using Jira and Agile QA processes.

CERTIFICATIONS

- Introduction to Responsible AI – Google Cloud & Simplilearn SkillUp (2026)
- Selenium WebDriver Fundamentals
- Software Testing Concepts and Methodologies
- Introduction to Software Testing / Software QA
- React JS Tutorial – Great Learning Academy
- React Basics – Coursera

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

2022 – Expected 2026

BSc (Hons) Information Technology

Sri Lanka

ADDITIONAL

Languages: Tamil, English

Soft Skills: Communication, Analytical Thinking, Problem Solving, Attention to Detail, Team Collaboration, Time Management
